

ICPUS

Integrated Care Pathway Users in Scotland 2007

A Workbook for People Starting to Develop
Integrated Care Pathways

The Motivation

- ABPI agreed to fund ‘Masterclass’ training in ICPs in Mental Health
- Mental Health teams did training sessions by region over period of time
- but, Acute-based ICP people were too thinly spread
- Decision made to do workbook instead
- Top Brass working group established to take forward
- High level meetings over about a year (1st meeting Feb 2006), held at Motorway service stations – *Abington is 950 feet above sea level!*
- Workbook born after lots of grunting & groaning & coffee & doughnuts

About the Workbook

Aim

- How to develop ICPs
- Lessons learned (many!)
- What not to do (even more!)
- Continuous Quality Improvement!

Section 1 - Introduction to Integrated Care Pathways

- General History
- General Principles
- Evidence from Research
- Legal Issues
- Policies and Guidelines to Consider
- Self Assessment 1: Introduction to ICPs

Section 2 - Processes for Development

- Getting Started
- Drafting the Process
- Issues for Documentation
- Self Assessment 2:
Processes for Development

Section 3 - Issues for Implementation

- Who's agenda to consider
- Variance and variance analysis
- Supporting Implementation and Maintaining Momentum
- Using and completing ICPs
- Self Assessment 3:
Issues for Implementation

Section 4 - Evaluating the Process

- The 4 Part Model
- Models from Research
- Embedding the Evaluation
- Self Assessment 4 :
Evaluating the Process

Section 5 - Other Related Issues

- Pitfalls
- Issues for the Future

Supporting Materials

- Glossary
- Sources of Information
- Reference List

The future

The plan is:

- Hosted on accessible website,
- With ability to lodge feedback (and any outcomes),
- Especially about non-standard ICPs,
- So that the workbook can be improved at Annual revisions.
